

25th International Laparoscopic surgery Symposium SFCE 2018 Meeting

Honorary President: Nicolas Demartines (Switzerland)

Thursday January 25th, 2018

9.00 - 10.30: Unedited video session: Colorectal surgery

- ETAP (**Bernard Lelong, Marseille**)
- Single port segmental colectomy (**Yves Panis, Paris**)
- Robot-assisted « up to down » abdominoperineal resection (**Alain Valverde, Paris**)
- TME after TEM (**Eric Rullier, Bordeaux**)

10.30- 11.00: Coffee break in Exhibition Hall

11.00- 12.00: Unedited video session : Bariatrics

- SADI (**Yves Anduze, Toulouse**)
- Distalization of Roux en Y gastric bypass(**Benoit Navez, Belgium**)
- Conversion from an omega-loop to a Roux-en-Y gastric bypass (**Vincent Frering, Lyon**)
- Banded sleeve gastrectomy (**Pierre Blanc, Saint Etienne**)

12.00- 12.15: Industrial Symposium

12.15- 12.30: Industrial Symposium

12.30- 13.00: Honorary President lecture: « Minimal invasive surgery inside Enhanced recovery program: technology, strategy» (Nicolas Demartines, Switzerland)

13.00- 14.00: Lunch break in the Exhibition Hall

14.00- 15.00 : Redo laparoscopic surgery

- Hiatal hernia recurrence (**Philippe Hauters, Belgium**)
- Laparoscopic pancreatectomy completion after pancreatoduodenectomy (**Frédéric Borie, Nîmes**)
- Reversal after Hartmann's procedure (**Guillaume Meurette, Nantes**)
- Laparoscopic as a diagnostic tool for suspected post-operative complications after colorectal resection (**Nicolas Goasguen, Paris**)

15.00- 16.00: Hands on

- Laparoscopic pancreaticojejunostomy (**Laurent Sulpice, Rennes**)
- Robotic retroportal lamina resection during lap PD (**Patrick Pessaux, Strasbourg**)
- Side to side stapled anastomosis during thoracoscopic esophagectomy (**Régis Souche, Montpellier**)
- Laparoscopic lumbar sympathectomy (**Marcelo Loureiro, Brazil**)

16.00- 16.30: Coffee break in Exhibition Hall

16.30- 17.00: Session Young Laparoscopic surgeons

- 1 Incidents during stapled low rectal division (**Martin Bertrand, Nîmes**)
- 2 Virtual reality headset for surgical training (société REVINAX)

17.00- 18.00: Session : Pitfalls to avoid

- During TA-TME (**Cécile de Chaisemartin, Marseille**)
- During liver resection (**David Fuks, Paris**)
- During colectomy (**Christine Denet, Paris**)

18.00 – 19.00: SFCE General Assembly

20.30: Gala Dinner

Friday January 26th, 2018

08.30- 10.30: Unedited video session : HPB surgery (robotic vs laparoscopic)

- Laparoscopic left hemi hepatectomy (**Olivier Scatton, Paris**)
- Robotic-assisted left hemi hepatectomy (Ugo Boggi, Pisa, Italy)
- Laparoscopic distal pancreatectomy with spleen preservation (warchaw's procedure) (**Benoit Gignoux, Lyon**)
- Robotic-assisted Laparoscopic spleen preserving distal (**Régis Fara, Marseille**)

10.30- 11.00: Coffee break in Exhibition Hall

11.00- 12.00: Unedited video session : Upper GI

- Thoracoscopic esophagectomy in prone position (**Jean Michel Fabre, Montpellier**)
- Robot-assisted esophagectomy with hand-sewn anastomosis (**Alain Valverde, Paris**)
- Lymphadenectomy during laparoscopic total gastrectomy (**Santi Azagra, Luxembourg**)

12.00- 12.15: Industrial Symposium

12.15- 12.30: Industrial Symposium

12.30- 13.00: Lecture: Connected Health solutions and « e- health”: opportunities and challenges (**Adel Jomni, Montpellier**)

13.00- 14.00 : Lunch break in Exhibition Hall

14.00- 15.00: « Clubs & Associations » Session

- Intra operative fibroscopy performed by the surgeon (**Cercle Kelling, Pierre Blanc**)
- Tailored rectal carcinoma management (**GRECCAR, Philippe Rouanet**)
- Ventral hernia (**GRECCO, Club Hernie, ACLAVINE**)
 - Laparoscopic approach (**Marc Lepère / Eric magne**)
 - Open onlay mesh placement (**André Dabrowski**)
 - Open sublay mesh placement (**Marc Soler**)
- Cholecystitis: timing to operate (**Club Coelio, Thierry Barthes**)

15.00- 16.00: MMESA Session

Moderators : Profs. Heshmat KALBASI (Iran) ,Javit AVCI (Turkey), JM. FABRE

- Processes involved on the occurrence of surgical complications during laparoscopy (**Jose Schiappa, Portugal**)
- Combined laparoscopic low anterior colon and partial hepatic resection of segment VI et VIII for synchronous Colorectal liver mets using revoLix-Laser. (**Maher Hossein, Lebanon**)
- Robotic trans-axillary Zenker’s diverticulectomy. A new therapeutic perspective. (**Gianluigi Melotti, Italy**)
- Spleen preserving distal pancreatectomy. (**Mohammed Boubekour, Algeria**)
- Full laparoscopic pancreatoduodenectomy (**Bijan Ghavami, Switzerland**)

16.00- 16.30: Coffee break in Exhibition Hall

16.30- 17.30: Scientific session « Difficult decisions »

- Cancer of the splenic flexure (**Gilles Manceau, Paris**)
- GIST of the oesogastric junction (**Brice Gayet, Paris**)
- Les doubles localisations colorectales (**Laura Beyer, Marseille**)
- Rectal cancer after treatment of prostate cancer (**Zaher Lakkis, Besançon**)

17.30- 18.30: Scientific session « controversies»

- Appendicitis: Surgery () vs antibiotics (**Karem Slim, Clermont-Ferrand**)
- Solitary liver met from colorectal cancer : Laparoscopic liver resection (**Ibrahim Dagher, Paris**) vs Percutaneous thermal ablation (**Anthony Sarra, Paris**)

Saturday January 27th, 2018

Session DPC : Continuing Medical Education Program (French surgeons)

Modérateurs : Francis Bonnet, Président SFAR ; Alain Deleuze, Jean Gugenheim (FCVD), Jean Michel Fabre (SFCE)

Peut-on étendre les indications de la chirurgie laparoscopique en ambulatoire

- Etat des lieux de la chirurgie ambulatoire digestive en France (HAS, CNAM)
- Chirurgie ambulatoire laparoscopique : gestion des risques (Alain Deleuze)
- Le rôle de l'équipe chirurgicale. De la RAC à l'ambulatoire (**Karem Slim**)
- Le rôle de l'équipe d'anesthésie: Recommandations SFAR
 - Marc Beaussier (Paris)
- Chirurgie ambulatoire laparoscopique et gestion des risques (**Alain Deleuze, FCVD**)
- Chirurgie ambulatoire laparoscopique : aspect médico-légal
 - Expert : **Jean GUGENHEIM**
 - Avocat : **Georges LACOEUILHE**
- Les nouvelles indications de chirurgie digestive laparoscopique en ambulatoire
 - La sleeve (**Lionel Rebibo**)
 - Le colon (**Benoit Gignoux**)
- Suivi post opératoire : « e-surveillance » (**David Lechaux**)
