

Program SFCE 2017 Meeting

Honorary President: **Antonio M. Lacy**

Living legend: **Jacques Périssat**

Thursday January 19, 2017

- 8.30 – 9h **Opening ceremony**
- 9.00-10.30 **Unedited live demonstrations : Colorectal surgery**
1. Rectal prolapse : Laparoscopic D'hoore procedure (Eric Magne, Bordeaux)
 2. Colo-anal anastomosis : tricks for a tension free anastomosis (Yves Panis, Paris)
 3. TA-TME for middle rectal cancer and colorectal anastomosis (Antonio Lacy, Barcelone)
 4. Robot-assisted right colectomy (Bernard Lelong, Marseille)
 5. Transanal surgery for retrorectal tumor (Jean Michel Fabre, Montpellier)
- 10.30 – 11 Break point
- 11- 12 **Unedited live demonstrations : Retroperitoneal space**
1. Robot-assisted partial nephrectomy (Nicolas Doumerc, Toulouse)
 2. Retroperitoneal paraganglioma (Laurent Brunaud, Nancy)
 3. Retroperitoneal adrenalectomy in lateral position (Jean Louis Dulucq, Bordeaux)
 4. Retroperitoneal adrenalectomy in prone position (Jean Michel Fabre, Montpellier)
- 12-12.15 SYMPOSIUM INDUSTRIE : Olympus
- 12.15-12.30 SYMPOSIUM INDUSTRIE : Medtronic
- 12.30-13 LECTURE : **Innovations in colorectal surgery (Antonio M. Lacy)**
- 13-14 Lunch
- 14-15 **Scientific session : Upper GI laparoscopic surgery**
1. Prophylactic total laparoscopic gastrectomy for CDH1 mutations (Guillaume Le Roux, Lorient)
 2. Surgical strategies for gastric cardiac adenocarcinoma (Juan Santiago Azagra, Luxembourg)
 3. Laparoscopic transgastric surgery for high grade dysplasia and early cancer (Monica Gualtierotti, Christophe Mariette, Lille)

4. Laparoscopic transhiatal esophagectomy : indications and technics (Alain Valverde, Paris)

15-16

Scientific session : bariatrics

1. Twist or stenosis after sleeve: optional treatments (Patrick Noel, Abu Dabi)
2. To calibrate or not Roux en Y gastric bypass (Pierre Blanc, Saint Etienne)
3. Weight regain after Roux en Y bypass: optional surgical treatments (Jean Gugenheim, Nice)
4. One or two steps redo surgeries for failed gastric banding (Maud Robert, Lyon)
5. SADI (Yves Anduze, Toulouse)

16-16.30

Break point

16.30-17h

Special scientific session for residents

1. Preliminary results of robot-assisted hepatic resection in a single center (Perrine Senellart, Orléans)
2. Cost effectiveness analysis between open, laparoscopic and robotic distal pancreatectomy (Maylis Rodriguez, Strasbourg)
3. Laparoscopic approach for ectopic pregnancy (Adrian Mancini, Grenoble)

17-18h

Session scientific « What to do»

1. Gastrobronchial fistula after sleeve gastrectomy (Catherine Arvieux, Grenoble)
2. Appendiceal mucocele (Diane Goere, Paris)
3. Endoscopic treatment of intraabdominal fluid collection (Gianfranco Donatelli, Paris)
4. Management of intra operative hemorrhage during laparoscopic liver resection (David, Fucks, Paris)

18h

General assembly

20.30

Gala dinner

Friday January 20, 2017

8.30-10.30

Unedited videos : HPB demonstrations

1. Key points of robot-assisted pancreatoduodenectomy (Olivier St Marc, Orléans)
2. Lap Central Pancreatectomy (Safi Dokmak, Paris)
3. « pancreas-preserving » partial duodenectomy (Frédéric Borie, Montpellier)

4. Key points of robot-assisted right hemi hepatectomy (Alain Valverde, Paris)

10.30-11

break point

11.00-12.00

Unedited videos : Upper GI demonstrations

1. Hand-sewn GJ anastomosis for Roux en Y bypass (Marcelo Loureiro, Brésil)
2. Mesh reinforcement for large hiatal hernia (Philippe Hauters, Belgique)
3. Transhiatal diverticulectomy (Jean Michel Fabre, Montpellier)
4. Laparoscopic transgastric surgery (Brice Gayet, Paris)

12.00-12.15

SYMPOSIUM INDUSTRIE (Ethicon)

12.15-12.30

NATIONAL ACADEMY OF SURGERY (Lecture)

12.30-13.00

LECTURE: « *Management of fatigue and security: are lessons learned from the cockpit transposable to the OR* » (Philippe Cabon)

13.00-14.00

Lunch

14.00-15.00

Session for Club and Associations

1. Coeliac axis compression related to arcuate ligament syndrome (Philippe Hauters, Club Coelio)
2. Hernia registry : 20 000 patients with 2 and 5 years of follow up (Jean François Gillion, Club Hernie)
3. Autologous Fibrin patch to prevent leaks after sleeve gastrectomy (Jacques Soufron, Grecco)
4. Surgery for GERD in 2016 (Laurent Bresler, Aclavine)
5. Usefulness of round ligament in bariatric surgery (Pierre Blanc, Cercle Kelling)
6. Results of randomized trials from GRECCAR (Jean Jacques Tuech, Rouen)

15.00-16.00

Controversies in colorectal surgery

1. Low rectal cancer : Surgical strategies may depend on response to neoadjuvant CRT ?
 - a. Yes (Quentin Denost, Bordeaux) vs No (Yves Panis, Paris)
2. Anastomosis after laparoscopic right colectomy
 - a. Intra (Julien Lemaire Belgique) vs extrabdominal (Christine Denet, Paris)

16.00-16.30

Break point

16.30-17.15

Technological sessions : How much ports we need?

1. Single port vs multiport in colorectal surgery (David Lechaux, Saint Briec)
2. Needlescopic and percutaneous lap cholecystectomy (Florent Jurzak, Saint Nazaire)

3. NOTES : Current indications and futur developpments (Silvana Perretta, Strasbourg)

17.15-18.15

Scientific session HPB

1. Pancreas-sparing total duodenectomy in FAP : Indications and technic (Jacques Ewald, Marseille)
2. Laparoscopic pancreas-preserving resection for cyst and solid lesions (Laurent Sulpice, Rennes)
3. Lap pancreatoduodenectomy : what is the future (Alain Sauvanet, Paris)

Saturday January 21, 2017

Continuing Medical Education Program

1. Gallstones and Common Bile Duct Stones : Strategies, Management and Relevance

9.00-10.20

- a. National Registry Data (Frédéric Borie, Nimes)
- b. Biliary cholecystitis : Is surgery always required ? (Florent Jurzak, Saint Nazaire)
- c. Intra operative cholangiography : routine or selective ? (Jean Luc Cardin, Laval)
- d. Asymptomatic gallstones in obese patients (Jean Gugenheim, SOFFCOMM, Nice)

10.20-10.40 : Break point

- e. Common bile duct stones (cholangitis excluded): Surgical management (Laurent Pelissier, Lorient)
- f. Management of intraoperative bile duct injury (Alain Valverde, Paris)
- g. Endoscopic treatment of post op complications after laparoscopic biliary surgery (Gianfranco Donatelli, Paris)
- h. Common bile duct stenosis after lap cholecystectomy
 - i. Percutaneous transhepatic biliary stent (Boris Guiu, Montpellier)
 - ii. Surgical treatment (Daniele Sommacale, Reims)
